

PAYWARD CANADA INC.

CRYPTO ASSET STATEMENT

Nobody Sausage (NOBODY)

Last updated on September 4, 2026

Disclaimer

Payward Canada Inc. (Kraken) is registered under Canadian securities laws as a restricted dealer and is offering Crypto Contracts on crypto assets in reliance on a prospectus exemption contained in the exemptive relief decision [Re Payward Canada Inc.](#) dated 04/01/2025 (the Decision). The statutory rights in section 130.1 of the Securities Act (Ontario), and, if applicable, similar statutory rights under the securities legislation of each other province and territory in Canada, do not apply in respect of the Crypto Asset Statement to the extent a Crypto Contract is distributed under the prospectus relief in the Decision.

No securities regulatory authority has expressed an opinion about the Crypto Contracts or any Crypto Assets (as defined in the Risk Statement) made available on the Kraken platform, including an opinion that NOBODY is not itself a security and/or derivative. Changes to applicable law may adversely affect the use, transfer, exchange, or value of any of your crypto assets, and such changes may be sudden and without notice.

Please note that this Crypto Asset Statement may not be exhaustive of all risks associated with trading NOBODY. Please review the [Risk Statement](#) and [Fee Schedule](#) for additional discussion of general risks and transaction fees associated with the Crypto Contracts and Crypto Assets made available through the Canadian Platform. These materials are for general information purposes only and are not investment advice or a recommendation or solicitation to buy, sell or hold any crypto asset or to engage in any specific trading strategy. The information contained in this Crypto Asset Statement is based on publicly available information provided by third parties.

What is Nobody Sausage and how does it work?

NOBODY is a community led meme token on the Solana blockchain, centered around the animated Nobody Sausage character created by visual artist Kael Cabral. The project brings together participants who engage through memes, humor, and internet culture. It focuses on shared entertainment and collective identity, with no stated utility beyond community expression and cultural participation.

Who is behind the project?

Nobody was founded by Kael Cabral.

Tokenomics of Nobody Sausage

The total supply of NOBODY is 1 billion tokens.

General Risks

Like all other digital assets, there are some general risks to investing in NOBODY. These include short history risk, volatility, and liquidity risk, demand risk, forking risk, code defects, cryptography risk,

regulatory risk, concentration risk, electronic trading risk and cyber security risk. For more information on general risks associated with smart contracts and digital assets, see [Kraken's Risk Statement](#).

Risks specific to Nobody Sausage

Competition

The Nobody Sausage network faces competition from other meme-based cryptocurrencies such as Dogecoin, Dogwifhat, PEPE, and others. NOBODY's value derives from its broader adoption in the market. If the Nobody Sausage network fails to achieve sufficient adoption compared to the other options in the market, this could negatively impact the value of NOBODY.

Due Diligence

Prior to listing on the Kraken platform, Kraken performed due diligence on NOBODY and determined that NOBODY is unlikely to be a security or derivative under Canadian securities legislation. Our analysis generally includes, but is not limited to, reviewing publicly available information on the following:

- The creation, governance, usage and design of NOBODY, including the source code, security and roadmap for growth in the developer community and, if available, the background of the developer(s) that created NOBODY;
- The supply, demand, maturity, utility and liquidity of NOBODY;
- Material technical risks associated with NOBODY, including any code defects, security breaches and other threats concerning NOBODY and its supporting blockchain (such as the susceptibility to hacking and impact of forking), or the practices and protocols that apply to them; and
- Legal and regulatory risks associated with NOBODY, including (i) any pending, potential, or prior civil, regulatory, criminal, or enforcement action relating to the issuance, distribution, or use of NOBODY, and (ii) consideration of statements made by any regulators or securities regulatory authorities in Canada, other regulators of the International Organization of Securities Commissions, or the regulator with the most significant connection to NOBODY about whether NOBODY, or generally about whether the type of crypto asset, is a security and/or derivative.
